DAXDA Community Impact & Outreach Lead Agreement

Role + Contract Draft for Nathan Roby

Draft v0.1 | Prepared June 10, 2026 | Attorney Review Required

Important Legal Notice: This is a business drafting template, not legal advice. It should be reviewed by a qualified attorney before signature or use. Any blanks should be completed before execution.

1. Role Summary

Field	Proposed Term
Role title	Community Impact & Outreach Fund Lead
Role holder	Nathan Roby
Project/company	DAXDA / DAXDA.IA, or the future legal entity formed to hold DAXDA operations
Fund lane	The 7% Community Impact / Outreach / Social Impact Reserve
Core function	Lead community outreach, impact partnerships, grant/community relationships, and proposed use cases for the 7% reserve.
Authority level	Operational lead and recommender only; no unilateral spending authority, equity transfer authority, or authority to bind DAXDA unless separately approved in writing.
Ownership note	The 7% reserve is a community/social impact allocation, not Nathan Roby personal equity unless a separate signed equity agreement expressly says otherwise.
Status	Independent contractor / role appointee unless a later written agreement changes status.

2. Agreement

This Community Impact & Outreach Lead Agreement ("Agreement") is entered into as of _____, 2026 ("Effective Date"), by and between DAXDA / DAXDA.IA, or its successor legal entity ("Company"), and Nathan Roby ("Lead"). Nicole Bess may sign on behalf of the DAXDA project until a formal entity or authorized officer is designated.

The parties agree that this draft is intended to define role scope, authority boundaries, confidentiality, deliverables, and governance for the 7% Community Impact / Outreach / Social Impact Reserve associated with DAXDA.

3. Purpose of the Role

The purpose of the role is to create a clear, accountable leadership lane for the 7% community impact allocation associated with DAXDA. The Lead will help translate DAXDA into community-facing partnerships, outreach programs, education efforts, social-impact grant opportunities, and public-good initiatives while preserving DAXDA claim boundaries and intellectual property.

The role is intended to support the Company mission without diluting governance, ownership, or operational control of DAXDA.

4. Duties and Responsibilities

- Build and maintain a community outreach map identifying local organizations, nonprofits, education groups, civic institutions, and community leaders relevant to DAXDA social-impact deployment.
- Develop a written plan for how the 7% reserve could support public-good projects, educational pilots, community safety work, scholarships, accessibility efforts, or other mission-aligned initiatives.
- Prepare outreach lists, contact notes, meeting summaries, and partner-intake notes for review by Nicole Bess or the Company's authorized decision-maker.
- Help identify community-facing use cases where DAXDA may improve AI governance literacy, decision transparency, or safe adoption of AI tools.
- Draft community-facing language that explains DAXDA in plain English without claiming full validation, institutional endorsement, AGI capability, legal certification, or guaranteed AI safety.
- Coordinate potential outreach events, community meetings, listening sessions, pilot conversations, or educational sessions only after written approval from the Company.
- Maintain clean records of all outreach contacts, conversations, commitments, requested follow-up, and any potential conflicts of interest.
- Report weekly on outreach activity, opportunities, risks, and recommendations regarding the community impact reserve.
- Protect confidential information, internal methods, source code, full prompt architecture, DA-X internals, trade secrets, and non-public business strategy.

5. Authority Limits

The Lead may recommend uses of the 7% reserve, but may not unilaterally approve, spend, transfer, pledge, donate, promise, assign, or encumber any Company funds, equity, IP, assets, brand rights, or community allocation.

Without prior written approval from Nicole Bess or the Company's authorized decision-maker, the Lead may not:

- Sign contracts or memoranda of understanding on behalf of DAXDA.
- Accept money, grants, sponsorships, donations, or restricted funds in the Company's name or in a personal account for Company purposes.
- Promise equity, revenue share, employment, fund distributions, ownership rights, naming rights, or governance rights to any third party.
- Represent that DAXDA is institutionally validated, legally certified, externally endorsed, or guaranteed safe.
- Disclose confidential materials, cloneable internals, source code, full prompt architecture, DA-X internals, private data, or non-public company strategy.
- Use DAXDA branding for events, fundraising, partnerships, publications, or outreach campaigns without written approval.

6. The 7% Community Impact / Outreach / Social Impact Reserve

The parties acknowledge that the Company may maintain or intend to maintain a 7% community impact, outreach, charity, or social-impact reserve (the "Community Reserve"). This Agreement does not transfer the Community Reserve to the Lead personally. The Community Reserve is a mission-aligned allocation to be governed by the Company according to future bylaws, operating agreement, board approval process, or written fund policy.

The Lead's role is to help design, recommend, and operationalize community-facing use of the Community Reserve. Final approval remains with the Company.

Recommended uses of the Community Reserve may include:

- Community AI-governance education.

- Responsible AI literacy workshops.
- Scholarships, fellowships, or small grants aligned with DAXDA's public-good mission.
- Support for community organizations evaluating AI risk in practical settings.
- Public-interest demos, training sessions, or safety-oriented outreach.
- Accessibility and inclusion efforts related to AI governance tools.

7. First 30-Day Deliverables

Deliverable	Minimum Standard	Due Date
Community Outreach Map	25-50 potential community, nonprofit, civic, education, or public-interest contacts with notes and priority score.	Day 7
Community Reserve Use Framework	One-page proposal explaining possible approved uses, prohibited uses, approval flow, and impact criteria.	Day 10
Outreach Scripts	Plain-English scripts for community partners that avoid validation and endorsement overclaims.	Day 14
Pilot Concepts	Three small community-facing pilot concepts for DAXDA education or AI-output review literacy.	Day 21
Monthly Community Impact Plan	30/60/90-day plan with goals, outreach rhythm, reporting format, and risk controls.	Day 30

8. Reporting and Accountability

The Lead will provide a weekly written update to Nicole Bess or the Company's authorized decision-maker. The update should include:

- Contacts made and responses received.
- Community needs or opportunities identified.
- Potential partners and next steps.
- Risks, conflicts, or claim-boundary concerns.
- Recommendations regarding Community Reserve use.
- Any request for Company approval before external commitments are made.

Failure to maintain transparent records may be grounds for suspension or termination of the role.

9. Compensation and Expenses

Unless a separate written compensation agreement is signed, this Agreement does not create salary, wages, equity, guaranteed distributions, commission, or personal entitlement to the 7% Community Reserve.

Any stipend, contractor payment, success fee, equity grant, reimbursement, or fund administration fee must be separately approved in writing before it is earned or payable.

The Lead may not incur expenses on behalf of DAXDA or seek reimbursement unless the expense was pre-approved in writing.

10. Confidentiality and Intellectual Property

The Lead agrees to keep confidential all non-public Company information, including but not limited to internal methods, source code, prompt architecture, DA-X internals, validation materials, funder strategy, reviewer lists, investor contacts, business plans, unreleased documents, and proprietary workflows.

Any work product created by the Lead within the scope of this role, including outreach lists, partner notes, scripts, program plans, community proposals, templates, and related materials, will be considered work product for the Company unless a separate written agreement states otherwise.

The Lead may not copy, distribute, publish, commercialize, or reuse DAXDA confidential materials outside Company-approved work.

11. Public Statements and Claim Boundaries

The Lead must use accurate, conservative language when describing DAXDA. Approved description:

> *"DAXDA is an AI governance decision-firewall that audits AI-generated outputs for unsupported claims, hidden assumptions, contradictions, risk severity, falsification gaps, and human-review triggers before organizations act."*

The Lead must not state or imply that DAXDA is fully validated, institutionally certified, legally approved, guaranteed safe, or an AGI system unless the Company authorizes such language in writing based on formal evidence.

12. Conflicts of Interest and Ethical Conduct

The Lead must disclose any personal, financial, family, employment, nonprofit, political, or organizational relationship that could affect recommendations for Community Reserve use. The Lead may not direct funds, benefits, contracts, or opportunities to himself, family members, close associates, affiliated organizations, or private interests without written disclosure and written approval.

The Lead must not use the DAXDA role for personal fundraising, personal promotion, unrelated business activity, or unauthorized solicitation.

13. Term, Review, and Termination

The initial term of this role is 90 days from the Effective Date unless extended, modified, or terminated in writing. The role may be reviewed at 30 days, 60 days, and 90 days.

The Company may suspend or terminate the role immediately for breach of confidentiality, unauthorized claims, unauthorized spending, misuse of Company name or materials, failure to report, conflict-of-interest violations, or conduct that creates legal, reputational, operational, or funder risk.

Either party may terminate this Agreement with seven days written notice, unless immediate termination is justified under the preceding paragraph.

14. Relationship of the Parties

The Lead is not an employee, officer, director, board member, partner, fiduciary, or authorized agent of the Company unless a separate written agreement expressly says otherwise. This Agreement does not create authority to bind the Company.

15. Non-Circumvention and Contact Integrity

The Lead may not use Company introductions, funder contacts, reviewer contacts, community leads, pilot prospects, or strategic relationships learned through this role to bypass the Company, redirect opportunities away from DAXDA, or create competing arrangements without written approval.

16. Records, Data, and File Hygiene

The Lead must maintain outreach records in Company-approved files or trackers. No confidential DAXDA materials should be stored in unmanaged public folders, personal public links, or shared with third parties without written approval.

17. Governing Law and Dispute Resolution

Governing law: _____.

Any dispute should first be addressed through good-faith discussion. If unresolved, the parties may use mediation or another written dispute process agreed by the parties before litigation, unless emergency injunctive relief is needed to protect confidential information or intellectual property.

18. Entire Agreement; Amendments

This Agreement is the complete role-scope agreement for the Lead's community impact and outreach role unless superseded by a later signed agreement. Any amendment must be in writing and signed by both parties.

19. Signatures

By signing below, the parties acknowledge that they have read this Agreement and intend to be bound by its role scope, authority limits, confidentiality obligations, and claim-boundary controls.

For DAXDA / DAXDA.IA	**Nathan Roby**
Signature: _____	Signature: _____
Name/Title: Nicole Bess / Project Lead or Authorized Signatory	Name/Title: Nathan Roby / Community Impact & Outreach Fund Lead
Date: _____	Date: _____

Appendix A: Nathan Roby Role Playbook

This appendix is operational guidance. It is intended to make the role executable without giving the Lead unrestricted authority.

A.1 Role Mission

Build the community-facing side of DAXDA so the 7% Community Reserve becomes a credible, accountable, public-good lane rather than an undefined promise.

A.2 Weekly Operating Rhythm

Day	Action	Output
Monday	Identify and prioritize outreach contacts.	Updated contact list.
Tuesday	Send approved outreach messages.	Outbound log.
Wednesday	Follow up and schedule conversations.	Follow-up tracker.
Thursday	Draft community program or pilot notes.	Pilot notes.
Friday	Submit weekly report to Nicole/company.	Weekly memo.

A.3 Approved First-Lane Outreach Categories

- Community colleges, libraries, and adult education programs interested in AI literacy.
- Nonprofits affected by AI in benefits, employment, housing, education, or civic services.
- Responsible technology groups and local civic innovation groups.
- Youth, workforce, and accessibility programs where AI governance education could be useful.
- Local community leaders who can explain practical harms from bad AI outputs.

A.4 Prohibited Outreach Claims

- Do not say DAXDA is fully validated.
- Do not say any university, hospital, funder, or institution has endorsed DAXDA unless written authorization exists.
- Do not say Nathan controls the 7% reserve personally.
- Do not promise grants, donations, contracts, or funding before Company approval.
- Do not disclose internal DA-X, source code, prompt architecture, or cloneable implementation details.

A.5 Weekly Report Template

Week ending: _____

Contacts made: _____

Responses received: _____

Promising community opportunities: _____

Risks or concerns: _____

Requests needing approval: _____

Recommended next actions: _____

Appendix B: One-Page Role Authorization Statement

This optional one-page statement may be used internally to describe the role in plain English.

Nathan Roby is designated as Community Impact & Outreach Fund Lead for DAXDA, subject to the written authority limits in his Agreement. His role is to help plan and coordinate community outreach, social-impact partnerships, and proposed uses of the 7% Community Impact / Outreach / Social Impact Reserve. The role is strategic and operational; it does not give Nathan personal ownership of the 7% reserve, unilateral spending authority, authority to bind DAXDA, or authority to represent that DAXDA has been institutionally validated. Nathan may recommend community-facing uses of the reserve, maintain outreach records, coordinate approved conversations, and prepare weekly reports. Final decisions remain with DAXDA’s authorized decision-maker or future governance structure.
